

Values Evaluation

Here are a few questions to help your group reflect together and see how effectively the values that often underpin small groups are being worked out. We suggest that you print out a copy of the sheet for each person in the group and ask them to fill it in. You could do this altogether or take the sheets away individually and bring them back the following week. The next step is to draw the results together and try and reach a consensus around each value, take some time to talk through each value and hear why people have marked it in the way they have. As part of this conversation draw out areas that need to be strengthened or reshaped about your group. Once you have drawn the results together and decided on a score for each value you can see which is the lowest and talk and pray about why this is and what you can do to develop this area.
